

Knowledge for Health

## K4Health Photoshare

K4Health Photoshare ([www.photoshare.org](http://www.photoshare.org)) is a leading editorial photography collection showcasing international health programs in action and the people they serve. Developed exclusively for nonprofit educational use, Photoshare's collection of over 20,000 images are available upon request and free of charge. The Photoshare collection covers a broad range of health-related topics:

- Family Planning and Reproductive Health
- HIV/AIDS
- Maternal and Child Health
- Nutrition
- Environment
- Humanitarian Assistance
- Malaria
- Democracy and Governance
- Agricultural and Economic Development
- Water Sanitation and Hygiene

## Request Photoshare Images

Photoshare images can be requested free of charge for nonprofit educational use. Requests are processed in 1-3 business days, with many fulfilled the same day. Requests for photos are carefully screened to ensure that images are properly credited and used in a context that accurately represents the real situation, subject, identity, or physical location of the image. K4Health users can contact Photoshare staff for assistance in searching the collection.

## Contribute to Photoshare

Photoshare images, generously shared by individuals and organizations around the world, capture the realities of urban and rural life in international public health settings. Photoshare welcomes amateur and professional photographers as well as anyone living, working, or traveling to contribute photographs. Photoshare's unique platform offers contributors the opportunity to promote program activities, track the use and value of photos, and help others communicate health and development issues through photography.

## Photoshare Blog

The Photoshare Blog ([www.photoshare.org/blog](http://www.photoshare.org/blog)) is a forum for photography enthusiasts worldwide who are interested in photography's role in international health programs. The Photoshare Blog provides users with updates on new images and contributors, as well as resources and information about photo news and contests.

## Annual Photoshare Events

Photoshare's annual events support efforts to advance digital technologies and to promote photography as a vital tool in global public health interventions. **The International Photoshare Photo Contest** is a popular international event mobilizing photographers to contribute to a growing collection of health-related photography in exchange for a chance to win prizes. The contest includes ten health and development categories judged by an international panel of photojournalists.

## Photoshare Photography Resources

With Photoshare's training and technical assistance, users can learn about digital asset management, digital photography, development photography ethics, and photography policy development.

## Contact
